- All submissions will be received through moodle.
- Unsubmitted assignments will not be evaluated.
- If a student remains absent during evaluation, his/her submission (if made) will not be evaluated.

Plagiarism

- Copying or sharing codes from the Internet and/or any other source will be referred as plagiarism.
- Students found to be committing plagiarism for a particular assignment will be penalized by the total mark of that assignment.
- If plagiarism occurs due to sharing of code between two or more students, all the students involved will be penalized.
- It is your duty to protect your code.

Thank You
